7,00,000 spindles running

Q3FY19 Business Highlights & Environment

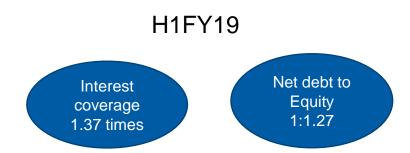

- Crossed 7 lac spindles, value added product mix contribution improving
- Sluggish overseas market, volatille US \$-INR rattled yarn exports.
- Domestic yarn prices remain subdued
- Domestic liquidity and collections facing tight situation

Amit Patel, Group Managing Director, said.

"The quarter under review was extremely challenging. Overseas markets remained sluggish and demand remained lacklustre with US \$ volatility, yarn offtake was slower. The domestic yarn prices reflecting weak overseas demand saw realisation sagging, hence a tough quarter. We grew our topline by 42% and EBITDA rose by 51 percent during Q3FY19 with a higher utilisation and value added product mix. We are emerging as a perferred one-stop-shop for our marquee fabric manufacturers."

"We have crossed utilisation of 7 lac plus spindles and objective is to gradually increase the value added mix in the topline and improve margins. Our new product launches in the last 9 months gives us a significant edge over our competitors and I believe our leadership position will entail us emerge as a full service supplier for our customers. The markets should stabilise in coming quarters and gradually cycle will turn positive for the yarn Industry."
